THE ESDAY MORKING, JULY 5, 1883.

NATEGNAL CHARD TERISTIES The first permanent settlement setal conof the United States was true made in Vit. de a in natural resources. Virginia was not infinion insuring resources, veightia was not out to be to say part of the containent. Here so was View in ore furtile, than that of New kindland, and should here a greated variety of products. Should include timber a greated variety of products. Should include timber and ground and water moves, whether the roat Chesareake bry with its mumberly so are the interior. Her climite, to was not prochiefly to be uniteral advantages, gave be the name of "The thi Dominion. And we test withstanding these advantages and Virginics withstanding position in early times follows: Washington. It we remaind no provide which and the New York has been as the transfer of the section companion of persons in early times, torce came into operation which made New England as the name with Sevents which in equals, the head of the moral material and random that G explicit Virian That foreign Wells, but is non-

development of the weatern engineer, and humbrons of the state probled Virginia back into an inferior or subpresent virginia trees into an interior or sine specified argunitation and anti-dependent ordinate place. This is said in any levils specified argunitation and anti-dependent of the interior argunitation specified and the specific point of the interior argunitation and the specified point of the interior argunitation and the specified argunitation are specified argunitation. history easily supplies the interpretation. The 2 in orthogst which has not an 11 than in tone to subject is suchested at this time by period of which there is an incharacter but the time by period of which there is an incharacter of the story but these are allowed delivered a short time since by are allowed which the surface of the surface o an address delivered a short time since of and meaningless runs are applies middless Charles Dudley Warner at the comme necession and meaningless runs are applies in other cases of the city of the city of exercises Dudley warmer at the comme meeting and meaninglies rains are apothes in Stherr exercises of theating colloge. Virginia. This mead. For example, the one of the enty of place and time were left for a discourse on so, Silem was an Indian aroundly ground and suggestion a therm. A centrary sgn a prophet was click of Cosmoketa, the place of council. would have said that the centre of national It seems almost an outrage that this beautiful would have said that the centre of instituta-strength would be if Virginia. This was the expectation of every observer. Why was it and characteristic name should have been put put and characteristic name should have been put and characteristic n Let us hirm to the census reports for an Multinomain. Names last long after the propie

ell be characterized as instructive industries, and not the matural advantages, are the basis of the prosperity and progress of the state, and that all is state has to do to put Itank in the front rank is to establish and multiply establishments. In a material

edt and other natural advantaged which were with the patriotic duties of the day and an and an sale with Trightia. There are more po- bonor to the state. For his great success we test factors in the development of a people cannot be too grateful to General H. A. Morand in the making of individual and national row, who has set an example of military of ganrium phover all obstacles which nature pre- falt always in the future. General Miles, in sense agricust him, Individual character lies his cration, grasped the central idea of Ameriit the rost of pational development. This can patriotism, and dwelt upon it with force barreter to a large degree is the product of and dignity. Instead of the usual spread-capte porial forces. In the early characteristics of production, he gave to us an address which a the settlers who landed upon New England and patriotic and liberty-loving neords would do Wirefrein shores there was no great diffusence, well to read and study. The other speeches some indeed that would not have assimilated to well appropriate and eloquent. The fuffuence tadde common conditions. They were equal, in that they had to make a living to a new security and adjust thereafters to their new security and adjust thereafters of discovering the day's doings, independent of its social fagteres, in which 40,000 people participated, cannot but be of the highest value. vironment—with the balance of disadvantage on the side of New England. Through colonial times a similar spirit actuated the people of the two sections, and in the revolution they bogan at allater day, when characperintion began to change. We are not going to may that slavery was the root of it all, but it was a main cause. It gave rise in time to class distinctions. It kept the south in the agment of a varied industry. Everything in the life of the nountry bad to continuous transfer of the nountry bad to continuous transfer of the nountry bad to continuous transfer of the United States, was a form to the conditions which athended sixwhelding. Labor was sourcely known except in its ruder forms. Education, which in New England busied itself with pracwas but a flash in the dark, forgotion except as the puriade to the thunder of Webster's invincible login. Hamilton organized the govern. Greeley fiason carried him into the democratic pant of the country while Jefferson was specu-party. aring upon the new ideas. Hard headed old. The Ben Franklin, not Patrick Henry, stamped commerce and the system of education which industrial and commercial conditions require elli affect the transfermation. The process must already be pronounced amazingly rapid, when it is remembered that it is less than

divergence of the two civilizations.

From the Helenal Horald we have an account of the progress of work on the grand hotelin the park, with a statement of the plan and dimensions of the structure. It is an enormous caraions of the structure. It is an enormous cara-ransary, fire stories high; it is: 420 feet long, y 60 lost wide, with a wing on each and 360 by have a sensor treatment and a feeling of acceptable. The transfer form organic displacement, who have a sensor treatment and a feeling of acceptable. by 60 feet wide, with a wing on each end 300 by 50 feet. A grands hall 20 feet wide the whole length of the building is the same for all the stories. There are 520 rooms, among which are 250 reception and club rooms and parlors for ladies. The main ordinary is
300 feet by 60. The whole front supports a grand colonnade, interspersed with hay windows, and the whole is surmounted by a tower 225 feet high. The architect who drew, the plans, ras paid \$5000 therefor. It is understood that the hotel will be opened on the 15th of July.

A new doubles track railroad is to be built from Harisoburg to Pitesburg, in opposition to the great Pennsylvania road. At Harrisoburg Try Br. Meniny's Celegy, Meef and Iron. the new road will have the Philadelphia and Reading for its easiern connection. The new road will follow a route considerably south of the line of the Pennsylvania. It will run from Harrishurg to Bolford, theme to Somerset, flomes across the Laurel hill, and down to Pittsburg by the Monongahela valley. Muchof the route is very mountainous, requiring is a tunuels, several of them more than a mile cach in length. The line from Harrisburg to Pitts Lipst-Ar (ANALSOCK) & MALLYS burg will be 229 miles long, and a double track and a solid a rower of the backfor one of oad will cost fully \$100,000 a mile. Vanderbilt is the power behind the scheme.

y of Portand

On or about July 10th we intend opening our ne . 69, 71, 73, Morrison street, between Third and Fourth streets, under the above name, "City of Portland." For the past three months we have sold out all our remnants and stock from last season, and the new establishment will contain nothing but the LATEST in Dry Goods, Bilks and Fancy Goods. comprising a well selecter stock of Foreign Novelties.

We add to our business an ART ROOM, under the super ision of Riss Schramme, the popular needle-work teacher. Lessons will be given at reasonable rates, and our Fall Stack will be well assorted with Wools and all the materials sary for Fancy Work.
